This Warning Letter is to inform you that SMITH ENERGY LLC (“Operator”) may be in violation of the rules and regulations of the Colorado Energy and Carbon Management Commission (“ECMC”) and corrective action is required.

ECMC has reasonable cause to believe that Operator has committed one or more violations of the Oil and Gas Conservation Act, or of a rule, regulation, or order of the Commission, or of a permit issued by the Commission. Operator is required to comply with this Warning Letter by the **Corrective Action Deadline Date(s)** to resolve the alleged violation(s). Failure to do so will result in the issuance of a Notice of Alleged Violation and initiation of enforcement proceedings in which ECMC will seek monetary penalties for the alleged violations pursuant to § 34-60-121, C.R.S. and Rule 525, ECMC Rules of Practice and Procedure, 2 CCR 404-1.

Alleged Violation(s) and Required Corrective Action(s):

419 Bradenhead Monitoring, Testing, and Reporting

Violation Date: 01/01/2026

Violation Discovery Date: 03/18/2026

Description of Alleged Violation: Pursuant to Rule 419, all wells will have an annual Bradenhead test reported to the ECMC.

As the operator of record, you have failed to report a Bradenhead test for 2025 at one or more wells.

Required Corrective Action: Operator shall review its records to verify if any Forms or Notices related to Bradenhead testing were late or are still outstanding for these Wells. Operator shall submit any delinquent forms, notices, or reports; and correct any incomplete or inaccurate reports.

Where Operator has failed to perform a Bradenhead Test in 2025, a test shall be performed by the Corrective Action Date listed below. Pursuant to Rule 420, Operator is required to submit the results of BH tests to ECMC within 10 days of completion. Operator shall submit such results by filing a Bradenhead Test Report, Form 17, which shall include a wellbore diagram if not previously submitted or if the wellbore configuration has changed, and the results of any gas and liquid analysis, if sampled.

Additionally, Operator shall send an email to the ECMC Representative indicated below, detailing an

internal procedure for timely compliance with Rule 419. Operator shall reference this Warning Letter document number in the subject of the email

For a given calendar year, Operator can find well listings for submitted Bradenhead tests and missing Bradenhead tests by using the tool available in WebForms (upper righthand corner of dashboard). It is suggested that the tool is utilized for identifying any outstanding Bradenhead tests for the identified year and proceeding accordingly.

If the Bradenhead test requirements do not apply per rule 614.e or tribal involvement, please email a list of those wells to the area engineer with the reason the test is not required.

Notes: This test or missing form is being accepted in lieu of the required 2025 Bradenhead test. The operator must still perform an additional Bradenhead test by December 31, 2026, for the 2026 Bradenhead test.

Guidance for Rule 419 is available on the ECMC website at:

Regulation – Operator Guidance - BRADENHEAD MONITORING , TESTING , MITIGATION, AND REPORTING

<http://ecmc/documents/reg/OpGuidance/Operator%20Guidance%20for%20Bradenhead%20Monitoring%20Testing%20Reporting.pdf>

If Bradenhead testing cannot be performed a Variance to Rule 419 is required.
