

Site Specific Final Reclamation Completion Notice – Abandoned Location Drone Imagery

Permit Closure Report – Abandoned Location

Location ID: 338079

Location Name: WAKEFIELD-61S45W/6NENE

Report Date:

2/14/2025

H2E has conducted a thorough review of the data provided in this report. This report was developed in accordance with ECMC Operator Guidance – Operator supplied abandoned location drone imagery and information for submitting a final reclamation completion notice.

Abandoned Location Type

This site was permitted, but no construction or drilling was completed for the location.

Inspection:

Performed by	H2E Inc.
Date	1/28/2025

All pertinent data, imagery, and materials are included at the end of this report.

Designated Land Use Observations

The following imagery sources were reviewed during this investigation:

Historic Google Earth imagery from 1985-2023, and 2025 drone imagery.

Site Observation Notes

This location and its associated wells were never constructed.

Closure Information

This final reclamation completion notice is intended to close the WAKEFIELD-61S45W/6NENE location (338079) which consists of the WAKEFIELD #41-6 (API # 05-125-10955) wellhead. This location is not shared with any other wells or tank batteries. This location was permitted but never constructed and no wells were drilled, so there are no associated tank batteries or flowlines to be abandoned. The Sundry Notice (Form 4) attached to this submission (Doc # 2556848) indicates that the well(s) was not drilled.

There were no remediation plans or incidents/spills associated with this location due to the lack of construction and drilling/production of the well(s).

Two inspections were conducted at this location, the first inspection (Doc. # 663901141) indicated there was no evidence of any ground disturbance but a stake was in place. The inspection also indicated that final reclamation had been achieved. The following inspection (Doc. # 673713376) indicated that there was abandoned equipment at 40.00287, -102.45284 and this was the closest well to the equipment. The inspection resulted in location 338079 having no reclamation status within ECMCs database. This final reclamation submission is intended to allow this abandoned location to achieve final reclamation as the location was never constructed and therefore does not have any associated oil and gas equipment on or adjacent to the former proposed location.

Drone imagery confirms that no oil and gas-related disturbances were associated with this location.

Location Checklist

Name	WAKEFIELD-61S45W/6NENE
