Commission**

Department of Natural Resources

Inspection Photos
Location Name: HIPPEN #2-32
Location ID: 327754

Photo 1. Looking north from the well location. All debris has been removed from the location. It appears vehicles have been driving across the location to access a landscaping project. It appears that reclamation activity was conducted on the location. Some desirable perennial vegetation establishment was observed on location. Vegetation appears to be progressing outside of the disturbed areas.

Photo 2. Looking west from the well location. See photo 1 comments.

Inspection Photos
Location Name: HIPPEN #2-32
Location ID: 327754

Photo 3. Looking south from the well location. See photo 1 comments.

Photo 4. Looking east from the well location. This area has a higher concentration of undesirable weeds such as kochia, list C noxious weeds cheatgrass and field bindweed are present on the location.

Inspection Photos
Location Name: HIPPEN #2-32
Location ID: 327754

Photo 5. Looking east across the location from the west side. This area has lower desirable vegetation establishment.

Photo 6. Reference vegetation to the north of the well location. Vegetation is primarily smooth brome.
