Comment	User	Date
<p><b>ECMC Audit Report Summary</b>                      On Friday 4/10/2026 at approximately 11:10 hours I, Inspector Tom Peterson, conducted an on-site inspection at the Crestone Peak Quails 28H-M368 Pad location #432240 in Weld County, Colorado.                      While there, I observed that the south condensate tanks and produced water tanks required replacement placards. During this inspection the following possible compliance issues were observed: Rule 605.h. with a corrective action date of 6/12/2026. A follow up inspection on this site needs to be conducted to ensure the compliance issues have been corrected to comply with ECMC rules.                      This is a summary of the inspection report.</p>	petersont	04/10/2026
