Operator Comments:

Land-Use-Change final reclamation drone documentation is attached per the ECMC Operator Guidance. Please route to the area reclamation specialist. This final reclamation completion notice is intended to close the MCELWAIN-61S67W/17SENE location (320418) which consists of the MCELWAIN #42-17 (API # 05-001-09275) wellhead. This wellhead does not share a disturbance with any other wells or tank batteries. There is one off-location flowline associated with this well that transported crude oil to the associated tank battery, and was removed in January of 2019. The associated tank battery does not have its own location ID and will be tied to the well for final reclamation closure.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
