General Comment:

On 4/22/2026, Acting Reclamation Supervisor Trujillo and Northwest Reclamation Specialist Maxwell conducted a final reclamation inspection at Bonanza Creek Energy Operating's Mccallum Unit 165 Oil and Gas Location, ID: 324729 in Jackson County, CO.

The well was PA'd 11/14/2010 (Form 6S #400556675).

The following compliance issues were observed during this inspection:

- Good housekeeping
- Final reclamation

Refer to the "Location," and "Reclamation," sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with ECMC rules.

Comment:

It was observed in this inspection that the access road remains without reclamation. The area where the former well was located is not progressing towards 1004 standards, potentially due to compaction issues; besides the central portion of the pad, the majority of the former well pad is progressing towards reference area vegetation standards. It was observed that an anchor marker is still on Location; Staff could not locate the anchors, but it is possible they have been buried over time. It was also observed that debris/trash/equipment was left on Location.

Corrective Action: **Comply with Rule 1004.a. and 1004.d. on the access road and bare portion of the well pad.**
