**General Comment:**

On April 20th, 2026 Reclamation Specialist Corey McDonough conducted a Final Reclamation Inspection at Hilcorp Energy's Allison Unit 69 location in La Plata County, Colorado. This is a shared location with the plugged Allison 116 well under a different location ID #325961.

This is a follow up inspection to inspection doc #404588153.

Additionally, this inspection is also in response to resolution doc #404420715 stating corrective actions have been completed. It was observed in this inspection that the previously observed corrective actions regarding weeds have been addressed. Included in the FIRR operator included surface owner letter; Surface owners desire is to leave the perimeter fence as well as waive final reclamation vegetation standards. Operator has been instructed to submit a final reclamation variance for these requests.

During the inspection the following compliance issues were observed.  
 - Final Reclamation Vegetation

Any Corrective Actions from previous inspections that have not been addressed are still applicable.

Refer to the photo-documentation of the observed compliance issues attached to this report.
