 - Distances

Distance from the Completed Zone of this Well to the Completed Zone of an offset Well within the same unit permitted or completed in the same formation was measured to the proposed Judy 3-10-6C. However, there is an existing and producing well - Judy 3-4 (API # 05-123-50294) owned and operated by Dunamis that was originally spaced in a separate WBS that is 186'.

Distance from the proposed wellbore to nearest existing or proposed wellbore belonging to another operator, including plugged wells was measured to the DA'd UPV *3-2M5 (API number 05-123-09279).

Dunamis states that mineral interest owners that own minerals within the drilling and spacing unit have neither responded to nor actively rejected an offer to lease within 60 days of receipt pursuant to C.R.S. § 34-60-116(7)(d)(I): As such, no unleased mineral interest owners within the drilling and spacing unit have rejected an offer to lease and a pooling Order is not required to comply with C.R.S. § 34-60-116(7)(e). Dunamis has filed a pooling application in Docket No. 260500136.
